The Honorable Arlen Specter  
United States Senate  
711 Hart Senate Office Building  
Washington, D.C. 20510

Dear Senator Specter:

I write on behalf of the 13,000 members of the Philadelphia Bar Association to urge Congress to conduct a formal investigation of the National Security Agency's (NSA) warrantless electronic surveillance program. Enclosed is a resolution passed by the Association's Board of Governors, urging Congress to review the authority of the Executive Branch to conduct electronic surveillance on United States citizens without court approval. While the Philadelphia Bar Association understands the necessity for broad intelligence gathering in defense of terrorism, the very civil liberties we are fighting to protect should not be sacrificed in the ongoing struggle against those who would do us harm.

We ask that Congress conduct a comprehensive investigation to ensure the Executive Branch has not and does not overstep its powers. In our view, an investigation is vitally important to ensure that the balance of powers among the three branches of government is respected, and the civil rights of our nations' citizens are protected.

Thank you for your consideration.

Respectfully yours,

Alan M. Feldman, Chancellor

The Honorable Todd R. Platts  
US House of Representatives  
1032 Longworth House Office Building  
Washington, D.C. 20510

Dear Representative Platts:

I write on behalf of the 13,000 members of the Philadelphia Bar Association to urge Congress to conduct a formal investigation of the National Security Agency's (NSA) warrantless electronic surveillance program. Enclosed is a resolution passed by the Association's Board of Governors, urging Congress to review the authority of the Executive Branch to conduct electronic surveillance on United States citizens without court approval. While the Philadelphia Bar Association understands the necessity for broad intelligence gathering in defense of terrorism, the very civil liberties we are fighting to protect should not be sacrificed in the ongoing struggle against those who would do us harm.

We ask that Congress conduct a comprehensive investigation to ensure the Executive Branch has not and does not overstep its powers. In our view, an investigation is vitally important to ensure that the balance of powers among the three branches of government is respected, and the civil rights of our nations' citizens are protected.

Thank you for your consideration.

Respectfully yours,

Alan M. Feldman, Chancellor
